Technology can be used to test the **quality**, **ripeness**, and **flavor** of fresh fruit in less than 15 seconds and in a reliable and non-destructive manner.

**Tellspec’s Fruit QC Accuracy**
1. Brix: accuracy < 0.99 °Bx
2. Titratable Acidity: accuracy < 0.99 g/L

This solution helps you **reduce the costs** associated with food waste and improve the **bottom line**, and at the same time **improve the quality** of fruit offered to customers.
